

MPGA GLOBAL TECHNOLOGY INC.

Your Trusted Partner in Oil and Gas Equipment

WHAT WE DO

Providing Comprehensive Solutions for Efficient and Reliable Oil and Gas Operations

We provide a range of specialized equipment and tools for the oil and gas industry. Our high-performance fracturing pumps are engineered to meet the demanding requirements of modern oil and gas extraction. Built for durability and efficiency, our pumps can deliver consistent performance, ensuring reliable fracturing in even the most challenging conditions. By utilizing advanced materials and precise engineering, our pump minimizes downtime and operation cost, providing optimized operation efficiency. In addition, we offer a wide range of equipment. For offshore operation, we provide containers designed for secure transport, storage and on-site accommodations. Our advanced drilling tools are built to enhance wellbore stability and ensure accuracy in diverse conditions. Additionally, our sucker trucks can deliver efficient fluid transportation. To meet evolving project demands, we can also supply on-demand equipment, tailored to fit any user specific operational needs, ensuring the client have the right tools when and where they're needed the most.

WHO WE ARE

Empowering Global Industries with Precision and Reliability

MPGA Global Inc. is a trusted partner across multiple industries, known for adapting to clients' evolving needs through strong connections with leading global equipment suppliers. We deliver high-quality products at competitive prices for energy, aerospace, and industrial applications. Our leadership team, backed by experienced professional with decades of expertise in strategic growth, financial management, and global trade, ensures the highest standards of quality and excellence. With a skilled team, each member bringing over a decade of industry experience, we set the bar for innovation and success in our field.

**MPGA Global
Technology Inc.**

MG600S Triplex Plunger Pump

Main Specifications

Rated Max Brake Horsepower ----	600 hp
Maximum Rod Load -----	100,000 lbf
Stroke Length -----	6 inch
Gear Ratio -----	4.61 : 1
Plunger -----	2.5 to 4.5 inch
Pump Weight -----	4,652 lbs

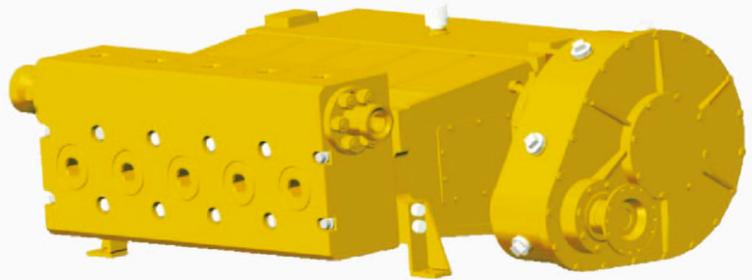

Mechanical Anti Backflow Spray - Unbiased Structure - Compact Direct Connection Structure

MG1000QS Quintuplex Plunger Pump

Main Specifications

Rated Max Brake Horsepower ----	1,000 hp
Maximum Rod Load -----	100,000 lbf
Stroke Length -----	6 inch
Gear Ratio -----	4.61 : 1
Plunger -----	2.5 to 4.5 in
Pump Weight -----	7,937 lbs

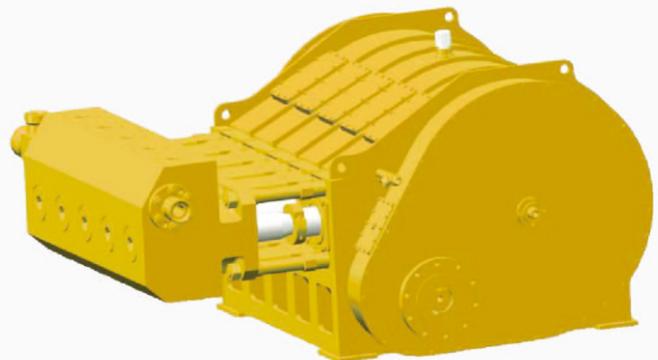

High Strength Shell - Easy Operation & Maintenance - Good Versatility

MG2500Q Quintuplex Plunger Pump

Main Specifications

Rated Max Brake Horsepower ----	2,500 hp
Maximum Rod Load -----	192,325 lbf
Stroke Length -----	8 inch
Gear Ratio -----	6.353 : 1
Plunger -----	3.5 to 5 inch
Pump Weight -----	16,535 lbs

High Strength Shell - Die Forged Critical Components - Long Life Hydraulic End
